COMMUNITY COMMITMENT

We provide tens of thousands of dollars and volunteer hours to numerous nonprofit organizations and worthwhile projects across the state, including Friendship House, among others.

SUSTAINABILITY IN ACTION

As part of our commitment to sustainability excellence, we've provided nearly 300,000 trees to various partner communities since 2002. These donated trees have helped generate environmental savings and health benefits for municipalities and residents valued at approximately \$37 million annually during the life of these trees. Learn more about our tree donation program at www.vistracorp.com/about/community-giving.
