Beat the Heat

With extreme heat impacting the health and well-being of the most vulnerable Texans, TXU Energy is committed to supporting our neighbors. The company's annual Beat the Heat program is a multi-week initiative that includes partnering with nonprofit agencies across the state to distribute A/C units and fans to families in need. TXU Energy also helps customers with energy conservation tips and bill payment assistance. Now in its 24th year, TXU Energy is proud to help Texans Beat the Heat.
