America's leading integrated power provider

VISTRA AT A GLANCE

Vistra (NYSE: VST) is a leading Fortune 500 integrated retail electricity and power generation company based in Irving, Texas, that provides essential resources to customers, businesses, and communities from California to Maine. Vistra is a leader in transforming the energy landscape, with an unyielding focus on reliability, affordability, and sustainability. The company safely operates a reliable, efficient power generation fleet of natural gas, nuclear, coal, solar, and battery energy storage facilities while taking an innovative, customer-centric approach to its retail business.

COMMUNITY COMMITMENT

Our family of companies is proud to support the communities where our employees and customers live, work, and grow. We take pride in being a good neighbor, and strengthening the places where we have customers, where our valued employees live, and where we call home. We provide tens of thousands of dollars and volunteer hours to numerous nonprofit organizations and worthwhile projects across the state, including:

- United Way organizations, including Southern Dallas Thrives initiative
- Education foundations and STEM programs
- Texas Trees Foundation
- Urban League affiliates
- The Senior Source
- Irving Cares
- BakerRipley

SUSTAINABILITY IN ACTION

As part of our commitment to sustainability excellence, we've provided nearly 300,000 trees to various partner communities since 2002. These donated trees have helped generate environmental savings and health benefits for municipalities and residents valued at approximately \$37 million annually during the life of these trees. Learn more about our tree donation program at www.vistracorp.com/about/community-giving. A few cities and schools, among others, that have received trees include:

- City of Corpus Christi
- Galveston County
- City of Dallas
- Paul Quinn College

Approximately **5 million retail customers** across the United States

Combined premier retail and wholesale brands

Approximately 44,000 MW generation capacity enough to power 22 million homes
